Message from the Editor

Howdy! I hope you have all had a great semester and I am sure that you are now beginning to prepare for finals. Before you pack up and head home for the holidays, I would strongly encourage each of you to register for the Southern Region Conference in Orlando.

These conferences are a great way to network with professionals across the southern region, and can be very helpful if you are considering a summer internship. Competing in the undergraduate paper and poster competitions as well as participating in the horticultural commodities judging competition are just a few ways you can take part in this experience.

2009-2010 ACB Officers	2

I greatly enjoyed meeting many of you at the Atlanta conference and hope to see you again in Orlando this February.

The deadline to register in order to receive group rates for the hotel is January 14th. Preregistration for the conference ends January 29th. For more information, visit the SRASHS website: <http://srashs.org/>

Best of luck on finals and I wish you all a wonderful holiday season.
